

Habitat for Humanity Hong Kong

Chatbot Knowledge Base — Document 1: Mission, Vision, and Core Values

1. Overview & Purpose

This document serves as an official reference text for the Habitat for Humanity Hong Kong chatbot. It contains verified, authoritative information regarding our organizational mission, vision, core principles, strategic focus area, and background history. The chatbot must utilize these sections to answer user questions regarding what the organization stands for, why it exists, and how it targets its efforts globally and locally within Hong Kong.

2. Vision Statement

A world where everyone has a decent place to live.

Our vision is anchored in the belief that housing is a fundamental human right and a cornerstone for breaking cycles of generational poverty. Every initiative, deployment, and partnership aims to realize this ideal globally and locally.

3. Mission Statement

Seeking to put God's love into action, Habitat for Humanity brings people together to build homes, communities and hope.

Habitat for Humanity Hong Kong welcomes people from all walks of life, faiths, and backgrounds to join us in our mission. We build and rehabilitate decent, safe, and affordable shelter alongside families in need of assistance.

4. Core Values

Our values govern how we make decisions, serve communities, and interact with stakeholders:

- **Humility:** We walk in humility, listening to local communities, appreciating their wisdom, and prioritizing their defined needs over our assumptions.
- **Courage:** We act with courage, advocating for systemic housing rights, pushing boundaries, and speaking up for marginalized populations facing housing distress.
- **Accountability:** We operate with maximum financial and operational accountability to donors, volunteers, and partners, ensuring optimal use of resources.

- **Inclusion:** We practice an all-inclusive policy. We do not proselytize, nor do we restrict aid based on race, religion, background, nationality, political alignment, or socio-economic status.

5. Context & Strategic Focus in Hong Kong

While Habitat for Humanity is recognized globally for constructing physical brick-and-mortar homes, the urban context of Hong Kong demands an adapted, highly strategic focus. Habitat for Humanity Hong Kong addresses severe housing challenges within one of the world's most densely populated and expensive property markets through three main pillars:

A. Local Substandard Housing Interventions

In Hong Kong, thousands of families live in sub-divided flats, cramped cage homes, or sub-standard rural housing. Our local operations focus heavily on critical home renovations, deep cleaning, safety repairs, and pest control services for vulnerable elderly individuals, low-income families, and disabled citizens.

B. Global & Regional Mobilization

As a key APAC fundraising and mobilization hub, Habitat for Humanity Hong Kong recruits, trains, and deploys volunteers and resources to support cross-border housing builds across Mainland China, Southeast Asia, and disaster-affected zones.

C. Public Policy and Policy Advocacy

We actively research and raise awareness about local and regional housing challenges. Through educational campaigns, corporate workshops, and research reports, we advocate for practical solutions and systemic improvements to affordable public housing and urban renewal frameworks.
