- **Skills Needed:** No prior construction or renovation experience is required. Full on-site training and tool safety briefings are provided by project supervisors.

B. Global Village (International Program)

The Global Village program lets volunteers travel abroad in organized groups to build homes alongside future Habitat homeowners in APAC destinations such as Mainland China, Cambodia, India, Indonesia, and Nepal.

- **Duration:** Usually spans 5 to 9 days depending on travel distances.
- **Activities:** Manual labor including mixing cement, laying bricks, digging foundations, and community integration events.
